

Eagle 6 Sends

Teammates,

Many of us love a challenge. Our Army has a long history of success in the most challenging circumstances achieved by Soldiers and Civilians who have risen to the test despite the circumstances. As we close out the FY14 mission, I challenge each of you to push through to the end. I know that you have been working hard to accomplish this mission and I expect nothing less.

We cannot afford to have a "I made my mission" mentality. Success is only achieved through the mission accomplishment of all our centers, battalions, BDE, and USAREC. We must not stack arms and wait for FY15...We can make this year's mission! If each BN raises their predicted daily rate by 3.4 RA, we will achieve our RA mission and come very close with similar effort in our USAR mission.

We have the people on our team who can win in this environment against lengthening odds. I will be looking for each of you (those who have already met mission success and those who are making their way toward this end) to push to the very last teammate. We must exhaust the funnel for our FY14 mission and by working hard to finish FY14, we will set the conditions for FY15.

EAGLES!

VR,
Colonel David F. Stewart
Commander, 2nd Recruiting Brigade
