MILITARY ACCESSIONS VITAL TO THE NATIONAL INTEREST

MAVNI INFORMATION SHEET FOR HEALTHCARE PROFESSIONALS

Military Accessions Vital to the National Interest (MAVNI) is a recruiting program which allows certain legal, non-citizens to commission into the Army Officer Corps if they are Healthcare Professionals licensed in the U.S. Individuals in this program must enlist for either three years on Active Duty or six years in the Selected Reserve.

Expedited Citizenship:

- ★ Soldiers must apply to receive expedited citizenship. Individuals who enlist in this program are able to move from non-immigrant visa or asylee/refugee/TPS status, directly to citizenship, bypassing the lengthy Green Card process.
- ★ The military is the only employer who can offer expedited citizenship and only military service members can naturalize without first obtaining a Green Card.

Excellent Opportunities:

- ★ High quality training and possible opportunities for advanced schooling
- ★ Ability to gain experience in trauma settings
- ★ Increase leadership skills
- ★ Honorable profession as an Army Officer

What current MAVNI's say about the program:

"MAVNI allowed me to grow in my medical training. It made me a better physician and human being. Professionally I am growing day by day; I am becoming an efficient leader in my civilian and military career. The U.S. Army keeps my skills up and pushes me to excel as a Physician and as a Medical Officer."

"I can't stress enough how I am truly blessed to be a part of the U.S. Army. MAVNI opened the door for me to pursue a higher career. In addition, the U.S. Army allows me to experience fabulous clinical experience that I would not have on the civilian side."

Program Criteria:

1. Individuals must be in one of the following categories at the time of their enlistment:

- ★ Non-immigrant categories E, F, H, I, J, K, L, M, O, P, Q, R, S, T, TC, TD, TN, U OR V
- ★ Asylee, refugee, Temporary Protected Status (TPS)

2. They must be legally present in the U.S. for a minimum of 2 years without a single extended absence over 90 days.

3. Must meet certain Army criteria to include: receive qualifying scores on the Armed Forces Qualification Test and an English language proficiency test as well as be fully licensed in the United States.
